

FLYING A DRONE NEAR AN AIRPORT MAY BE

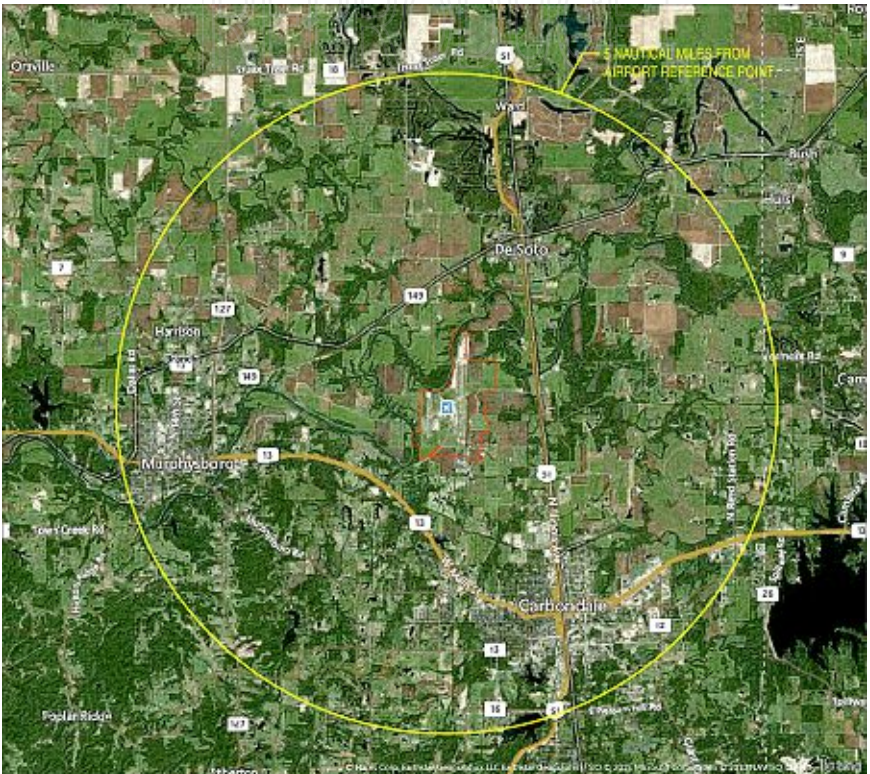

ILLEGAL AND POTENTIALLY DANGEROUS

Hobbyists who want to operate drones within 5 miles of the Southern Illinois Airport must contact and receive permission from the Airport Authority and the Airport Traffic Control Tower before they fly.

Call the Airport Authority at **618-529-1721** and the ATCT at **618-529-1311**

APPLIES ANYWHERE

- All drones weighing more than 8.8 ounces must register the drone with the FAA
- Flights must not exceed 400 feet
- The drone operator must retain visual line of sight on the drone
- Don't fly near stadiums or groups of people
- Don't fly a drone near emergency response efforts
- Operate drones only during daylight hours
